### AWARD WINNER

**CALEN MASAI, OTA** - ARCADIA HEALTH & REHABILITATION CENTER CENTER

"Calen has been with us full time since September. Since his first day, he has maintained a bright, cheerful attitude that brightens up the atmosphere. He shows each and every one of his patients compassion, greets all facility staff cheerfully, can frequently be heard telling jokes to his patients, and singing as he walks along the hallways. Many staff members have commented on how helpful and friendly he is. Calen also offered, and did work at the facility to assist nursing due to a spur of the moment need during Hurricane Sally, which was not predicted to come to Pensacola. He has been a joy to have here all around."

**EDWARD NAVEDO, PTA** - SPECIALTY HEALTH & REHABILITATION CENTER

"Ed has not even been with Halcyon or Specialty for 1 month and he has already shown himself to be a valued asset to the company and team. Ed is a retired firefighter from NY and became a PTA to follow another passion. We are so happy he made this decision and decided to join us at Specialty. Recently, Ed was walking by a current therapy patient's room and saw the nursing staff struggling to aide an unresponsive patient and required CPR. Without hesitation, Ed jumped in to aide the staff and resident by providing his expertise to the situation. Once the situation was over, Ed returned to his schedule and completed his day. Ed's calm nature and expertise were shown during this stressful situation and very much appreciated by the facility and staff. Thank you, ED. "
